### GRAIN AND PRODUCE MARKET

Good Rains in Corn Belt Would Precipitate Much Anxiety.

OUTLOOK IS QUITE SPOTTED

But Speculators in the Yellow Cereal Understand that Favorable Weather with Moisture Will Bring Big Results.

Corn crop losses may be called pronounced, yet good rains would drive out the larger holders unless they made the stand of their levels, which they would be likely to do, as they have handsome profits and are now on "velvet." The country is promised lower temperatures and showers in many sections of the corn belt, and in case of a thorough wetting down there will be a general scramble of holders. It has been many years since the corn crop was as spotted as it as present. It is estimated by some that the yield will total 2,700,000 bushels, but they say in making up these estimates that, it will take good weather from now on to raise the crop up around the fore-going figures. As for several days past, the crop reports received from many sections of the corn belt yesterday were of all descriptions. Many of them, however, were quite discouraging, as some places in Kansas report the corn being plowed under and farmers making preparations to seed winter wheat where the corn turned out a failure.

Corn is hanging around a very high level, but under present conditions the price is fully justified. The corn market has been an unusual one since the crop was seeded, as the weather has for some time been unfavorable, excepting possibly in lowa and some of the other large corn growing state. One old timer, a crop expert, who has just returned from the country south of Chicago, says that the reports of damage has been greatly exaggerated for a purpose.

Cash corn was ic higher.

Wheat played "second fiddle" to the corn market yesterday and at times it was duil and weak, closing at sharp losses. Northwestern markets were weaker and these, too, in the face of heavy decreases in the stocks at Minneapolis and Duluth.

Cash wheat was ½c higher.

There were increased offerings of oats yesterday in the pit and the attempts of Chicago professionals to force prices higher failed.

Cash oats were unchanged to ½c higher. Clearances were: Wheat and flour equal to 824,000 bu.; corn, 1,000 bu.; oats, none.

CHICAGO GRAIN AND PROVISIONS

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 31.—Squeezing of corn shorts in the winding up of the July delivery made the price of that option advance nearly four cents today. The final cost of July corn was 694c, an upturn of 34c. Other months closed unchanged to 5c up. The finish in wheat varied from 46%c decline to a shade advance. Oats were unchanged to 44%c off, and provisions ranged from 45c loss to a gain of 5c.

Belated shorts in corn had to pay dearly for their stubbornness in postponing settlement until the extreme limits allowed by contract. After the price moved up about 3 cents to 685c, there was said to have been private adjustment of differences by a number of big shorts. A few who were more obstinate let the market rise to 694c before yielding submission.

Somewhat better threshing returns tended to weaken oats. There was a good volume of business in this cereal, but the total was far from being equal but the total was far from being equal to that in corn.

Provisions suffered from liquidating sales by longs. The incentive came chiefly through a decline in the price

his is the unqualified statemocratic senator who is en-Soon after Mr. Coffey's nomination was sent in, among other things it was charged that Mr. Coffey was not a Simon pure democrat and that he has acted as the agent of "Dick" Richards when the latter was making his fight against Senator Sterling for the senatorial nomination. It was further charged that he was the friend of the liquor interests in South Dakota and intimations were made that if he were to be appointed internal revenue collector he would avail himself of any opportunity afforded to favor those interests in return for their political favor.

Confirmation has been delayed at the request of Senator Sterling who asked that these and other charges against Mr. Coffey be thoroughly investigated. The finance committee reported in favor of confirmation.

When the case was brought up in the executive session of the senate today the objection to confirmation pressed was that Mr. Coffey should not hold his position as state democratic chairman and at the same time hold a federal office. It was then agreed to give Mr. Coffey an opportunity to resign as chairman. If he does this, it is said that his appointment will be speedily confirmed, Final action is not expected before the middle of August as there is some doubt expressed what course Mr. Coffey will pursue.

## Fire Breaks Out; Insane in Panic

MILWAUKEE, Wis., July 31.-Fire broke out in the buildings of the Milwaukee chronic insane asylum shortly after midnight and wild acenes of disorder followed among the 300 patients. The insane rushed to the windows of their wards, smashed the lights, fought back the guards and for a time had complete control of the place. Amid

back the guards and for a time had complete control of the place. Amid terrific thunder and vivid lightning the howling maniacs created such a din that it could be heard for miles about the country. Just as they were about to break forth from their dormitories a squad of thirty parolled patients arrived from a nearby asylum and fought back the frenzied men and women.
